7. Troop trains passing through Stendal, coming from the direction of Wittenberge and proceeding toward Magdeburg or Berlin included: a train of about 25 cars, including 12 flatcars with sideracks carrying tanks, and 3 boxcars occupied by troops, on 4 March; 2 trains during the night of 4 March; and 3 trains occupied by VP with tanks. on 6 March Motor vehicles seen at the Stendal reilroad station

= 2 --

25X1

25X1

Comment. Probably units of the 120th (?) AAA Regt of the 6th Gds Mecz 25X1 went to Justerbog probably for firing practice.

2. Comment. This train has not been indicated in reports on transportation. It probably carried AAA units of the 63d AAA Div (US), which returned from advanced combat practice firing, The motor vehicle belong to various units of the Fourth Gds Mecz Arm.

3. Comment. The entrained unit belonged to the 31st AAA Div and, 25X1 went to Altengrabow

Comment. It is possible that a new course began in early March at the Artillerie Schule in the barracks installation on Strausberg Lake.

25X1

Cornent, According to motor vehicle the units probably belonged 25X1 to the 19th Gds Mecz Div stationed in the Herrenkrug Kaserne and Anger Kaserne. Other elements had left the installation in late February, probably for short-term exercises. The units mentioned in paragraph 5 may have gone to the Letzling Heath training area for short advanced combat practice firing.

6. Comment. the departure of elements of the 34th Arty Div (US) to Genthan. This accounts for the fact that the barracks in stallations in Nedlitz were only partially lighted on 4 March.

25X1 7. Comment. After the return of elements of the 10th Gds Tank Div from exercises on 21 and 22 February, the Kavallerie Schule, in early March, can again be carried as occupied to capacity. 25X1

3. Cormont.

> The majority or one venicue opserved at the Stendal radiroad station belong to the Third Shock Army and the IV Arty Corps.
